DETAILED ACTION

Drawings

1. The drawings were received on 3/15/05. These drawings are acceptable.

Allowable Subject Matter

2. Claims 1-3, 5, 7-13 and 16 are allowed.
3. The following is an examiner's statement of reasons for allowance: the prior art of record fails to disclose a combination of elements in a radio communication system, including a wireless subscriber terminal that receives a priority list and checks by means of identification codes of listed radio transmission modes whether at least one of the identification codes gives a radio transmission mode by which the transceiver of the subscriber terminal can transmit and receive radio signals, the wireless subscriber terminal transmits to the base station the identification codes for all the radio transmission modes by which the transceiver of the subscriber terminal can transmit and receive radio signals, and a control means for the base station then creates a priority list by means of the identification codes transmitted by the subscriber terminal, the identification codes being listed in the priority list in an order of precedence dependent on the size of respective availability values, as in claims 1 and 10-13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
